Education **2019–2022 B.Sc. Computer Science at Netanya Academic College**

- Dean's list for the 2020–2021 academic year.
- GPA: 89.
- Head of Final Year Project: A mobile app that uses Audio and Image processing with Machine Learning.

2011-2014 Ish Shalom High-School, Kfar Yona

- Computer Science courses based on C#, HTML, CSS.

Work Experience **2020-2022 Students Assignment Reviewer, Netanya Academic College**

Checked and graded over 1000 assignments done by students in the following courses: C (Procedural Programming), Java (OOP) and Algorithms.
Environments: Linux, Clion, IntelliJ and Eclipse.

2017 – 2021 Simulator Instructor, Rafael – Amarel

I received a group of about 100 authorized military personnel every week.
My main responsibilities were:

- Briefing the new group regarding their relevant project.
- Guiding them throughout their simulation.
- Help them solve their malfunctions (Troubleshooting).

Military Service **2014-2017 Senior Commander at The Israeli Navy**

- In charge of three different technological courses as part of the new recruit's advanced training before becoming part of the missile ship crew.
- Supervised nine training commanders by the end of my military service.
- Got honored as an excelling commander in 2016.

Skills **Programming Languages:** Python, Java, C#, C.
Frontend: HTML, CSS, JavaScript, JSP, React, jQuery, ASP.Net.
Backend: Node.js, Servlet.
Tools: Firebase, Visual Studio Code/Community, IntelliJ, PyCharm.
Databases: MySQL, Apache Derby.
